Environmental assertions	
Reduced use of resources	Graphic symbol
<p>The MODUS3 X model, unlike previous Custom models of equal commercial positioning, is equipped with <b>Paper Saving Mode</b> feature and is therefore capable of reducing paper consumption by 30%, at the same time retaining the same amount of data in the ticket/receipt. The reduction ratio refers to the total length of the ticket, measured over 2 reference lengths (58 and 40). The <b>Paper Saving Mode</b> feature does not affect the Header and Image printing sections on the ticket, which remain unaffected.</p>
